ABOUT ME

I am a fresher web developer with strong knowledge of HTML, CSS and basic JavaScript, looking for an entry-level role to build real-world projects.

I enjoy learning new technologies and creating clean, responsive web pages that work well on mobile and desktop.

I am a quick learner and a good team player, ready to contribute and grow with your company.

EDUCATION

2023 - 2024

Bonne nehru higher secondary school

HSC (12th Standard) – Bonne Nehru Higher Secondary School, Villupuram
2022 – 2024 | Completed in 2024 batch

2024 - 2028

Mailam engineering college

Computer Science And Engineering

B.E. Computer Science and Engineering – Mailam Engineering College, Mailam
2024 – 2028 | Currently studying (1st year)

PROJECTS

2025

Offline AI Assistant

Built a simple AI question-answer assistant that works without internet using pre-stored data and basic algorithms. Focused on fast responses and user-friendly interface, implemented using core programming concepts.

2025

Restaurant Website UI

Designed a modern responsive restaurant website layout in Figma with home, menu, about and contact pages. Used consistent colours, typography and components to improve user experience and easy developer handoff.

2025

Smart Irrigation

Created a smart irrigation model that uses sensor data to control water flow automatically and reduce water wastage for farmers. Presented the project in a technical competition and won an award for innovation.

SKILLS

- Programming
- UI/Ux tools
- Communication
- Innovation
- AI basic prompt
- Teamwork
- Problem Solving
- Collaboration

ACHIEVEMENTS

College project competition for "Agri-based Smart Irrigation System"

Presented technical paper on smart irrigation project at college symposium.

Developed offline AI assistant and Figma restaurant website designs.
